Professional Experience

Front-end Engineer Mid-Level (Feb/2023 -Nov/2023) Spott

I worked on code maintenance to solve bugs and implement system improvements for the company's web and mobile application. Both are developed in React/React Native with Typescript and the use of styled-components in styling. I also worked with receiving data via Websocket. Development of the new layout of the Web system using Next.js 13 as core framework and the use of TailwindCSS in styling. Code versioning with git, using github for the repositories. Projects within the Scrum methodology.

- Skills: REST APIs · React JS · React Native· Websocket · TypeScript · Next.js 13 · TailwindCSS · Styled-components

Frontend Engineer (Jul/2022 - Feb/2023) Codeby

Provide support to clients such as Extrafarma, Promofarma, Orthocrin and Dengo, assigned to a team allocated to projects focused on e-commerce, paying attention to bug fixes, improvement surveys, creation of new layouts passed on by a design team, version updates , testing in approval environments and final version deployment, I worked this year using the following technologies: Vtex IO, Vtex CMS, JavaScript, TypeScript, React.JS, Node.JS, GraphQL, SASS, HTML, CSS and JQuery, Following the Responsive Mobile First Web Design standard, I also had contact with triggering events for Google Analytics.

- Skills: REST APIs · VTEX IO · VTEX CMS · Linx · React.js · TypeScript · JavaScript · Node.JS · GraphQL · JQuery · HTML · CSS · SASS

Junior Front-end Developer (Apr/2022 - Jul/2022) OctoShop

- Develop new front-end applications for e-commerce Octoshop and bug fixes.
- Front end: Analysis system on the Seller's account balance, Customer product evaluation system and New home page of Octoshop.(Front-end). Skills: Magento

Full-Stack Engineer (May/2021 - Jan/2023) Habit'Art

- Development and Support of the Habit'Art project. The system was an e-commerce for sales of rustic furniture.
- In the construction of e-commerce I worked with HTML, CSS, JavaScript, PHP and MySQL technologies.
